

SALTMECH X

JULY 6 - 8 2022
UTRECHT UNIVERSITY | THE NETHERLANDS

Dear colleagues,

We are pleased to announce that **Registration is now open for 10th Conference on the Mechanical Behavior of Salt (SaltMech X)**, which will take place on **6–8 July, 2022 at Utrecht University in the Netherlands**.

In the afternoon of 5 July 2022, an icebreaker plus technical tours of the *High Pressure and Temperature (HPT) Laboratory*, and other nearby laboratories, will be held – along with on-site registration and badge/package collection.

Given the imminent lifting of virtually all Covid-related restrictions in the Netherlands, the SaltMech X Organizing Committee is confident that a physical, on-site conference will be possible in July and looks forward to welcoming you to Utrecht.

We invite you to register to attend the SaltMech X Conference as soon as possible but by 20 May 2022 at latest. To do so, go to <https://www.saltmech.com/>.

Registration must be confirmed by submitting your registration fees by or on 20 May. In the event of re-introduction of pandemic-related travel or other restrictions with significant impact at that time, or between 20 May and 30 June, hybrid (physical / online) conferencing options will be made available, along with reduced fees for online attendance and any reimbursements that may be needed.

Travel and Accommodation: For details see <https://www.saltmech.com/hotel-venue/>. Travel arrangements are to be made by the attendees themselves. Utrecht has a wide variety of hotels and B&B's. We recommend using the [Hotel Mitland Utrecht](#), which offers a special deal for bookings made by conference attendees before 1 May 2022 and is conveniently located for both conference and city activities. Shuttle buses will provide quick transport between Hotel Mitland and the conference venue at the start of each conference day. Instructions for booking rooms at the Mitland Hotel are attached. Bookings can be cancelled, free of charge, up to 72 hours before arrival.

We look forward to receiving your registration and to meeting together here in Utrecht.

With kind regards,

The Local Organising Committee for SaltMech X

Dr. Suzanne Hangx, Dr. André Niemeijer, Dr. Matteo Gazzani, Prof. Hans de Bresser, Prof. Martyn Drury and Prof. Chris Spiers,
