Webinar Series

11 May 2023

5:00-6:00pm (Sydney)

Special Edition:

How Am I Fighting My Glioblastoma Brain Cancer?

Dr Bahman Tohidi, a Professor at the Institute of GeoEnergy Engineering, Heriot-Watt University, though this presentation is separate from his position at Heriot-Watt University. From academic background, he is a world leader in the research fields of Flow Assurance, Phase Behaviour and PVT. He has published more than 480 papers and holds 13 patents, mainly in gas hydrates and PVT. He was the SPE Distinguished Lecturer in 2004-2005 with his talk entitled, "Gas Hydrates: Friend or Foe?" and the recipient of "Lifetime Achievement" from the 9th International Conference on Gas Hydrate, Denver, USA, in June 2017. His research played a major role in Heriot-Watt University winning the Queen's Anniversary Prizes in 2015. Also, his research group work was recognised as one of the top 10 UK examples of the role of Chemical Engineering in the Modern World by the IChemE in 2016. In November 2021, he won the Best Technical Presentation by the IChemE, Aberdeen Branch, UK. He taught Production Technology for ten years to Heriot-Watt MSc students in Edinburgh and various Heriot-Watt University Approved Learning Partners (ALP).
